Commissioner Dexter L. McCoy's Statement on Fort Bend County Judge KP George Announcing His Move to the Republican Party

FORT BEND COUNTY, TX – Commissioner Dexter L. McCoy issued the following statement regarding Fort Bend County Judge KP George announcing his move to the Republican Party.

“Our community is better than morally corrupt officials who will lie and compromise their integrity for their own personal gain. I will be clear and say in no uncertain terms: KP George is a threat to our county and must resign now!

Today’s announcement that KP George has abandoned the Democratic Party only confirms what many of us in Fort Bend County have known for months: that KP George has been in active discussions with the Republican Party—including Attorney General Ken Paxton and the Fort Bend Republican Party Chairman —seeking a deal to switch parties in exchange for political refuge and assistance with his legal troubles.

Let us be clear—this is not a matter of political ideology. It is a matter of integrity. He has chosen to prioritize his own personal self-interests over the will and well-being of the people who elected him. He has turned his back on the values he claimed to represent, and in so doing, has betrayed the trust of our community.

He should immediately resign.

In the time since his indictments, our county has lost out on major economic development opportunities, including the naming of our Fort Bend Epicenter, because unfortunately our county has become known for his alleged criminal activity and not the diverse, vibrant place we know that it is.

Instead of stepping aside, he insists on dragging our county through legal drama, distractions, and self-inflicted crises. The people of Fort Bend County deserve leaders who are focused on public service, not personal survival. Fort Bend County deserves better.”
