Fort Bend County Sheriff's Office Launches Community Connect Program

Residents and businesses in Fort Bend County are invited to participate in this exciting new public-private crime mitigation and safety initiative

(Fort Bend County, Texas) – The Fort Bend County Sheriff's Office (FBCSO) announces the official launch of its latest public safety initiative.
Powered by Fusus, the new platform is a Real Time Crime Center in the Cloud designed to provide critical and actionable information that speeds up investigations and emergency response and keeps residents and businesses safer. The platform includes a camera registry – an online portal for citizens to register their security cameras to help solve crimes in the community. The FBCSO is hoping that citizens will register their cameras and help create a community-wide public safety ecosystem.

Residential and commercial property owners and businesses are invited to register their security cameras. Registrant information and any video files provided will be kept confidential and only used in the event of a criminal investigation or emergency incident. Registering a camera with FBCSO is quickly and easily done through the self-service portal at www.fortbendconnect.org.

The new platform unifies public and private video feeds and combines them with a host of new functionalities designed to streamline and enhance the Fort Bend County Sheriff's Office law enforcement capabilities. This includes 9-1-1 and Computer-Aided-Dispatch (CAD) integration, officer geolocation, and the ability to pull multiple types of data ranging from floor plans to cell phone video to gunfire detection sensors to body camera footage all into a single map-based interface.

"Continuing to build a real partnership between our residents and businesses and the Sheriff's Office is the key to a successful public safety landscape," says Sheriff Eric Fagan. "This new platform will enable us to operate more efficiently to create a safer county for our residents. I strongly urge all the security camera owners in the community to take part in this fantastic new program.
